

DANE CAMERON
AMERICA'S RISING STAR

AMERICA'S RISING STAR

Dane Cameron is undoubtedly one of the most talented young American drivers on the racing scene today, arriving at this stage of his career by quickly distinguishing himself on every rung of the open-wheel ladder.

It began in 2000 with an extremely successful karting career that, over four years, included a second place finish in the Canadian National Karting Championships, a first place finish in the 2003 Jim Russell Karting 80cc Junior Shifter Championship, a scholarship to the Jim Russell Racing School and a finalist spot in the 2004 Red Bull Driver Search. Dane continued his winning ways into 2005, when he was named SCCA Formula Jim Russell Series Champion and Rookie of the Year. As a Team USA Scholarship driver, the following year

he won the 2006 Palmer Audi Winter Championship in Europe, earned honors as the 2006 F2000 Rookie of the Year and finished second in the championship. This past year, Dane blew the doors off the 2007 Star Mazda Championship, where he was not only named Rookie of the Year, but also Series Champion, the second driver in the Star Mazda's 18-year history to become champion in his first season.

This is just the beginning for Dane Cameron. In seven short years, he has become one of the most talked-about drivers in open wheel racing. And if you've ever seen him on the track, you can tell; he's just getting started...

ABOUT STAR MAZDA SERIES PRESENTED BY GOODYEAR

Founded in 1991, the professionally organized Star Mazda Series has provided the most popular format for sponsors, spectators, and upward bound drivers, a success evidenced by fields of 30 to 40 cars at many races. Star Mazda Series have been paired with a variety of major types of racing, including Formula One, American LeMans Series, IndyCar, ChampCar, race trucks and NASCAR stock cars.

The Star Mazda Championship presented by Goodyear featuring the Pro Formula Mazda, is sanctioned by the International Motor Sports Association and currently appears with the prestigious American LeMans Series and Daytona Prototypes.
